

**Danbury**  
MotorCaravans

**Keeping the legend alive**

## We build what *you* want

At our ultra-modern factory Danbury Motorcaravans convert the compact VW Caddy, the versatile VW T5 and the fantastic retro style VW T2 into a fabulous range of small to mid-sized motorcaravans.

We are a long established family-run business with an engineering background and because of this you will find all our models are of the highest possible quality.

We offer a one-stop-shop for all your needs. Our extensive range of motorcaravans caters for all – with short and long wheelbase versions and the choice of fixed, elevating or high top roofs. Each camper comes with an extensive list of standard equipment which can be supplemented from our range of optional extras. Alternatively customers can choose the 'Danbury Flexi Build' scheme which allows you the freedom to customise the standard equipment with large selection of both wood-grain and modern colour laminates for the interior furniture.

Our flexibility continues when it comes to the purchase – ask about our special offer finance terms (available subject to status). The Danbury part-exchange service allows you to part-exchange any make or model of car, bike or caravan.

Finally we have our own stores department offering next-day delivery on most parts, and a full service and accident repair workshop facility with a free loan car always available whilst we work on your vehicle!

British-built hand-crafted interiors

## The Danbury classic T2 range... what goes into the latest VW retro-style van

Our VW T2 campervans are built brand new by Volkswagen and then lovingly converted by our technicians in our high-tech Bristol workshops.

This means you will get an economical, water-cooled VW powered vehicle running on bio-fuel as well as unleaded. You also get a fabulous exterior paint finish, a hand-built interior, modern seating and a choice of customisation levels. In fact the only thing that's old about our VW T2 campervans is the original, timeless design. And who would want to change that?

To choose which model would suit you, browse through the following pages, look at our website for even more information or arrange a visit to our Bristol showrooms.
